

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PRESENTATION OF PETITIONS

HOTEL TERMINAL, SAN FRANCISCO CAL., January 17, 1917.

To the President of the Senate, Legislature of Nevada, Carson City, Nevada.

ESTEEMED SIR: Accompanying herewith is copy of National Defense Military Highway Bill now pending before Congress, also literature pertaining thereto.

Acting in the interest of a number of the mountain counties of California and on behalf of Honorable John E. Raker of California, Member of the House of Representatives, with whom I am cooperating, and acting also in the interest of the various highway organizations with which I am identified, I address to you this communication.

It is deemed desirable by Mr. Raker, as well as myself, to secure from the present Nevada Legislature a resolution approving and endorsing said bill, together with a recommendation and request that the same be favorably acted upon and adopted by the Federal Government as a national defense measure.

It is needless to say that it has very powerful and extensive support in California—particularly in the Sierra counties adjacent to Nevada—and it is perhaps equally superfluous to say that it vitally concerns your great State, which assertion only requires your casual consideration to confirm.

I take the liberty to place this in your hands with the request that you will kindly see that it is put in the proper way to receive the favorable official action which is justified by its great importance to the State, the Pacific Coast and the Nation.

I have the honor to subscribe myself, very respectfully, your obedient servant,

W. G. SCOTT,

Executive Secretary, Inyo Good Roads Club, Vice-President, National Midland Trail Association for California, Chairman, Division of National Parks in Council of National Advisors, National Highways Association.

Senator Harrington moved that the petition, together with such matters as may be contained in the message of Governor Johnson, be referred to the Committee on Counties, County Boundaries, Roads and Bridges.

TONOPAH, February 3, 1917.

Nevada Senate:

We, the undersigned workers of Tonopah District, respectfully solicit the passage of the semimonthly pay-day bill pending before your body.

L. F. PUNCOCHAR and 87 others.

January 30, 1917.

Clerk of the Senate, State of Nevada, Carson City.

DEAR SIR: I would appreciate it very much if you would send me a copy of your legislative manual. I desire the names of the members of your Legislature

for the purpose of sending to them material issued gratis by the institute dealing with state budgets. This is purely an educational feature of the work of the Institute for Public Service.

Thanking you, I am very truly yours,

W. O. HEFFERNAN.

An informal smoker will be given by and at the Sagebrush Club Tuesday evening, February 6, beginning at 8 o'clock. An ample supply of cubeb cigarettes, malted milk, angel cake and limburger cheese, coupled with an instrumental duet to be murdered by Ed Walker and Jack Richards, insures a peaceful evening. All legislators and attachés of sufficiently depraved habits to be congenial under such circumstances are cordially invited to attend. Wheelbarrows with one-man power motors will be provided for those who attain a degree of listlessness incompatible with the energy required for pedal locomotion on the homeward journey.

L. F. ADAMSON,
P. B. ELLIS,
Committee on Invitation.

PRESENTATION OF PETITIONS

To the President, Members, and Attachés of the Senate:

You are cordially invited to visit the Smith Studio for a sitting, as I wish to make a group of the entire session. This in no way obligates you.

Respectfully,

A. L. SMITH.

Honorable Gentlemen:

Being one of the thousands of women who find it necessary to be self-supporting, ask you to please vote for the eight-hour law for women that we might better our physical and mental conditions by having time and rest to do so.

Thanking you, I beg to remain, yours truly,

EFFIE VAN PATTEN.

To the Senators.

DEAR SIR: I sincerely hope that you will support the eight-hour law for working women. Sincerely,

VAY BLAKESLEY,

Palace Dry Goods House, Reno, Nevada.

Senator Buol moved that all petitions in regard to the eight-hour law be considered read and referred to the Committee on Judiciary.

Carried.

The Honorable the Senate and Assembly.

GENTLEMEN: The present law which requires a party desiring to try his case before a jury to pay \$36 a day, throughout the trial, is an unnecessary hardship, which frequently results in a practical denial of the right of trial by jury. On the contrary, to put the whole burden of jury fees in civil cases on the county would probably be a heavy burden to the people of this State.

I have the honor to suggest, therefore, that a law might be so framed as to place the ultimate burden of the jury fee in civil cases on the litigants and at the same time relieve the party desiring to try his case by a jury of the necessity of paying therefor day by day throughout the trial.

Why not require the party desiring a jury to enter into a good and sufficient bond to the county, conditioned that the jury fees will be reimbursed if the other party prevail; and, on the other hand, require the losing party to pay the jury fee as a condition precedent to an appeal?

Or, the present situation might be relieved by enabling a litigant to make oath that he cannot pay the required jury fee, and on order of the Court the jury fee might be paid by the county and reimbursed if the plaintiff, unable to pay the required fee, prevail in the action.

Very respectfully,

THOMAS E. KEPNER.

TONOPAH, NEVADA, February 9, 1917.

HON. MAURICE J. SULLIVAN, *President of the Senate.*

HON. BEN LUCE, *Speaker of the Assembly.*

GENTLEMEN: In the present posture of our international affairs, and more particularly in view of President Wilson's recent declarations, the thoughtful men

of our country are inquiring into, and informing themselves upon, the principles and program of The League To Enforce Peace. In fact, the subject is being discussed in all countries.

The League has no plans or proposals for stopping the present war. It is only concerned with conditions arising after the present war is over. It seeks to devise some international machinery for preventing, or at least minimizing, wars in the future.

As a member of the League in Nevada, I have just been advised by the National Secretary of the United States branch of the League, that the members in each State are being requested to present the League program to the Legislatures of our respective States, to the end that the legislative men of the States might be made familiar with the plan and purpose of the League. I have been requested to ask permission to present the League plan to the Nevada Legislature.

As a delegate from Nevada, I attended the National Conference of the League in Washington last May, and have been more or less in touch with the movement ever since that time.

I have no personal desire to appear before our Legislature, nor to trespass upon their time. But if the Legislature should care to hear an explanation of the League movement, I would be very glad to present it. The talk would not exceed forty minutes.

I have a case to argue in the Supreme Court on Wednesday, February 14. I will be in Carson City all day Tuesday, February 13. I could appear before the Legislature any time during Tuesday, or Tuesday night, if desired.

I shall be at the Riverside Hotel, Reno, all day Sunday and Monday, February 11 and 12. Please address me there in the event the foregoing suggestion meets the approval of the Legislature.

Faithfully,

HUGH H. BROWN.

MOTIONS, RESOLUTIONS, AND NOTICES

Senate Resolution No. 14, relative to marriage and divorce; authorizing the appointment of a committee to investigate and report on the subject, and committing Nevada to the leadership in a movement for better safeguarding the integrity of the American home:

WHEREAS, The home is the unit and basis of civilized society upon which the welfare of this Nation depends; and

WHEREAS, The people of Nevada deem the custom of divorce as now administered by the diverse and conflicting laws of the several States to be a vicious menace to the integrity of the American home; and

WHEREAS, The divorce law of Nevada was passed in 1861, before the State was admitted into the Union, and has continued unchanged for more than fifty years; and

WHEREAS, The standard of residence, then, was deemed just and was followed later in the Constitutional requirement for electors; and the grounds for divorce, then, were so fixed because they were deemed just; and

WHEREAS, No outside motive or outside demand existed then or has been considered since, and the law has been tested by time and use and remains adequate to the needs of our people; and

WHEREAS, The American Bar Association recently approved grounds for divorce such as have been in force in Nevada since 1861; and

WHEREAS, The evident and growing inadequacy of the laws of other States to serve their peoples has imposed increasing abuses upon our laws; and

WHEREAS, No internal fault of the law of Nevada has developed in fifty years, and it is believed that the abuses are due to external causes; and

WHEREAS, The people of Nevada have been maligned and a false reputation concerning them has been created by those who would make Nevada the scape-goat of a national evil and problem; and

WHEREAS, The evils of divorce legislation can be abated only by accommodating the marriage and divorce laws governing all the people to a single standard consistent with the national conscience, thereby preventing each State from avoiding responsibility to and for its own people: therefore, be it

Resolved, That, in order to promote the national welfare, to make known the true character of the people of Nevada, and to engage actively in the practical work facing all the American people, the State of Nevada do assume leadership in a movement to make uniform the marriage and divorce laws of the American States, and to make them responsive to the ideals of the American people as a whole; be it further

Resolved, That, to this end, a committee be appointed to serve, without pay from or charge against the State of Nevada, consisting of not less than three nor more than five persons, appointed forthwith by the Governor of Nevada, and that such committee be vested and charged with the following powers and duties respecting the work for which it is created:

To investigate the operation of the existing statutes of Nevada and other States of the Union respecting marriage, divorce, and kindred matters;

To visit the President of the United States, request his counsel and cooperation, and to solicit the counsel and cooperation of all appropriate departments and officers of the Federal Government, including the representative of Nevada in the Congress of the United States;

To correspond, consult, and cooperate with official bureaus and committees appointed in other States for like purposes; conduct meetings in other States, inviting the attendance of public committees or officials and private citizens thereat;

To cooperate with any society or association, not for profit, having similar aims; and

To take and preserve a record of its doings and the information and testimony secured, and to present a full report or abstract thereof, with conclusions, discussion and recommendations, and including a report and recommendations on existing, proposed, or desirable legislation respecting the object of its labors; and be it further

Resolved, That such Committee shall present its report to this session, or, if not practicable, to the Twenty-ninth Session of the Legislature of Nevada.

Senator Huskey moved that Senate Resolution No. 14 be made a special order for Friday at 2:30, and that in the meantime it be printed.

REPORT OF JOINT COMMITTEE ON INVESTIGATION OF UNIVERSITY OF NEVADA

To the Honorable, the Senate and the Assembly of the Twenty-eighth Session of the Nevada State Legislature:

Your committee appointed under the authority of Assembly Joint and Concurrent Resolution No. 1, having completed its labors, begs to submit the following report of its findings:

The resolution above mentioned provided for the appointment of a joint bipartisan committee of six members and directed such committee to "make a full and complete investigation of the University, its management and the acts and administration of the President, the Faculty and the present and retiring Board of Regents," and to report to this Legislature.

The committee, chosen in part each by the Speaker of the Assembly and the President of the Senate, consists of Senators, Chapin, Buol and Hesson, and Assemblymen Fulmer, Coryell and Bell; and, in passing, we might call attention to the fact that three members of the committee are Republicans and three are Democrats. Your committee has endeavored to the best of its ability to cover the ground outlined in the resolution creating it and to fully discharge the duties imposed upon it. A series of public meetings has been held in Reno extending over a period of four weeks, during which time such meetings were held on eight days, with some night sessions. Considerable interest was manifested in the hearings, as is evidenced by the fact that large numbers of spectators were present at all times, and marked attention was paid to all the deliberations.

Mr. J. Lozano, a competent stenographer, was selected by the committee to report the deliberations of the committee, and a complete transcript of all the evidence and matters upon which this report is based is transmitted herewith.

Also, under the authority conferred upon the committee, and to enable the committee to consider intelligently the charges which have been made concerning the condition of the books and accounts of the University, Mr. Frederic M. Lee, a certified public accountant of San Francisco, Cal., was employed by the committee to make a thorough investigation, audit, and report of and concerning the business affairs of the University. Mr. Lee has completed his cash audit and his investigation, and his report thereof is submitted herewith. Further reference to this audit and report will be made hereafter in the report of this Committee.

Numerous witnesses were subpoenaed by the committee or appeared voluntarily to testify, and in the opinion of the committee every person appeared before it during the course of the investigation who was in a position to throw any material light upon the affairs of the University. No one was denied a hearing, and the committee endeavored at all times to secure the presence of all persons who might be of assistance to them in ascertaining the exact conditions, or in arriving at a correct conclusion on any point included within the scope of the investigation. The witnesses included every member of the present and of the last Board of Regents, the President of the University, the Comptroller, many instructors at the University, and several prominent citizens of the State, and one of California.

As was to be expected, much of the testimony offered was conflicting, and also in some instances statements were made by persons connected with the University which depended, for their effect, upon the interpretation placed upon them by the persons in whose presence such statements were made. In the cases mentioned, the committee has tried to discover fully the attendant circumstances and any other facts which might assist in determining the weight to be given to the testimony of the various witnesses. If our conclusions have not been correct in all cases, it is solely the result of honest mistakes in judgment on the part of every member of the committee, as every statement made in this report is indorsed by every individual member of the committee, and our sole aim in this connection has been to treat impartially every phase of the investigation and to do complete justice, so far as we might be able, to every person concerned.

For some time past, various statements have been made reflecting upon the conduct of the affairs of the University by its Board of Regents. Some of these criticisms have been merited, while others have not.

We find that during the year 1916 a citizen of the State of Nevada called at the office of the Comptroller of the University with a request in writing for certain information which should have been, and probably was, shown by the books of accounts of the University. Mr. Gorman, the then Comptroller, testified that he had refused access to the accounts to the person presenting the request, but transmitted the request for information to Mr. Henderson, the then chairman of the Board of Regents. The information requested was later compiled, but was never furnished to the persons requesting it. The only criticism this committee has to make concerning this affair is this: We believe the Comptroller should have given the person making the request every opportunity to examine the University's accounts, so long as it did not seriously interfere with the work of the office. These accounts are public records and should at all reasonable times, in the opinion of the committee, be open to inspection by any citizen of the State.

Several years ago, it was thought best to segregate the financial management of the University from the educational department, and such segregation was effected by the employment of a Comptroller answerable to the Board of Regents. The plan has not proven a success. Meetings of the Regents are usually infrequently held, and the Regents are not kept in as close touch with the University's finances as it is imperative some one in authority should be. The President of the University should be a competent executive along both educational and business lines. He should have the same authority over the Comptroller as over the other employees of the University. No man can be competent to manage an institution to the best advantage who is compelled to proceed in ignorance, to a great extent, of its financial affairs. The system in effect at the University during the past several years has resulted in lax methods in the business department and great uncertainty on the educational side. Proper reports were not made, though

requested by the Regents, either as individuals or as a board, and by the President. The latter was without authority to compel them to be furnished, and the Regents, for some reason or other, did not do so. The fact that the system was not working well came to the knowledge of the Board of Regents on various occasions, and this committee considers that the board was neglectful of its duty in not having taken steps to right matters without unnecessary delay.

It appears that no audit of the University's accounts has been made since January, 1913, until the one made by Mr. Lee, under the employment of this committee. The Board of Regents during that period of four years is certainly subject to censure for its patent neglect of such an important duty. Various excuses have been offered for this neglect, but it is the opinion of this committee that such failure was and is absolutely inexcusable. It is true that Mr. Gaston was employed during the latter part of 1916 to make such an audit. It also appears that the board paid Mr. Gaston the sum of \$1,500 for such audit, but it does not appear that the audit was ever completed. We do not hold Mr. Gaston entirely responsible for his failure to complete the audit, as the condition of the accounts at the time doubtless rendered it difficult to do the necessary work. Yet it is a fact that for a considerable portion of the time when Mr. Gaston was so engaged he was also employed as Comptroller of the University at a salary of \$250 per month, and it seems to us that there should have been ample time available in which to remedy the condition of the accounts and also to audit them. Especially are we led to this conclusion by the very satisfactory cash audit and report made by Mr. Lee, completed in a little more than three weeks, at a cost of \$1,000.

During the course of our investigation, considerable comment was made from time to time concerning the failure of the Board of Regents in September, 1914, at the time of employing President Hendrick, to have him furnish indorsements "as to moral character and qualifications as an instructor by the President and Faculty of three institutions of learning authorized by law to confer degrees." While this requirement of the law was not strictly complied with, this committee feels it is unable to say just what sort of indorsements would be necessary for a strict compliance. The failure appears to have been in securing the indorsements of the faculties of three such institutions of learning, and we feel that this requirement should have been observed to a greater extent. We say this, however, without in any way intending to reflect upon President Hendrick or upon his qualifications, which, in the opinion of the committee, are and were ample for the position to which he was elected. It appears that the President was not informed of the statutory requirements, and therefore made no effort to secure such indorsements by the faculties. The credentials received by the Board of Regents in his behalf were most excellent, and the committee feels that President Hendrick is fortunate indeed in his possession of the high esteem of so many representative and influential citizens of the West.

We find that the office of Comptroller has not been well conducted during the past four years. The accounts have not been kept written up to date, and we feel that the system of accounting in use is itself defective in many respects. Mr. Lee strongly urges the installation of a system under the direction of "The Carnegie Foundation for the Advancement of Teaching." We know of no one more competent to advise intelligently with the board regarding this matter than Mr. Lee, and believe his statement along these lines worthy of careful consideration. Mr. Lee's report further states that the last recorded trial balance of the University accounts is dated July 31, 1913; that no one posted any entries in the books after July 1, 1916, when Mr. Gorman resigned as Comptroller; that the cash-book balance is \$3,491.09 less than the balance actually in the banks; and that it was necessary for him (Mr. Lee), in order to make his audit, to do a great deal of old posting—for instance, posting all the Revolving Fund credits since March, 1913. As suggested by Mr. Lee, this committee feels that the reemployment of Mr. Gorman as Comptroller in January, 1917, speaks exceedingly well of the feeling of security the present Board of Regents must entertain concerning his integrity. And this committee believes that such confidence is warranted, as there is no indication or intimation of the possible misappropriation of a single cent of money during his administration of the affairs of the Comptroller's office, and there is every indication that such a misappropriation would have been unusually easy of accomplishment had the desire existed.

For his lax methods, however, he is deserving of censure. There was some testimony tending to show him to have been overworked, but there was also testimony that he had been repeatedly urged to get his work up to date and to keep it so, and told that if additional assistants were necessary in order to do so, he should employ them without delay.

We feel that the Finance Committee of the Board of Regents has been lacking in a proper discharge of its duties. There is no record of a meeting of this committee from July 15, 1914, until June 24, 1916—a period of practically two years. It also appears that the Comptroller has been in the habit of taking the bills around to the various places of business of the members of this committee and securing their separate individual approval of them before payment. This committee feels that the place to transact the business of the University is at the University, and further that the individual approval of bills by the members of the committee does not constitute a proper approval of the committee. We feel that the Finance Committee, if this duty is to devolve upon them, should arrange for stated meetings of the committee at the University at least monthly, and then transact their business in a businesslike manner, in committee, and after due deliberation, keeping a record of their proceedings.

Passing now to the action of the Board of Regents on January 5, 1917, in demanding the resignation of President Hendrick, and their expressed intention of dismissing him summarily if his resignation was not forthcoming immediately, we wish to say in the beginning that this committee does not for a moment question the legal authority of the board in taking such action. Also, we feel that the new board, in so doing, acted conscientiously and in a way which they probably considered for the best interests of the University. Regents Abel and Baker, however, aspired to the office of Regent at the recent election, openly pledged to vote for a change in the presidency of the University in the event of their election. We question whether this fact would indicate a proper qualification for the office of Regent. Regent Curler pledged himself to make a thorough investigation of University affairs in the event of his election and to proceed in the matter of a change of presidency according to his best judgment thereafter. (These statements regarding preelection pledges are not based upon an inspection thereof or exact information concerning them, as the Regents in question promised to furnish a copy of each to the committee, but failed to do so.) We question whether any open-minded man elected to membership on the Board of Regents and taking office on January 2, 1917, would have on January 5, 1917, or only three days later, by his vote assisted in the accomplishment of the removal of the President after, at most, but a superficial investigation. From his own testimony and that of others, however, it is quite apparent that Regent Curler attached but nominal importance to his preelection pledge to investigate before acting, but considered himself virtually bound to vote for the President's dismissal. Had it been proven to Regent Curler that President Hendrick should have not been dismissed, Regent Curler states that he would have tendered his own resignation as Regent, rather than have voted to retain the President.

We consider that much good would have been accomplished and many causes of misunderstanding would have been removed if the Regents had felt free to lay the entire matter before President Hendrick and give him full opportunity to explain such matters as were possible of explanation. It is a matter of great regret and grave concern, as regards the welfare of the University, that such action as was taken by Regents Abel, Curler, and Baker, constituting a majority of the Board of Regents, should have been taken with so little consideration for the person principally concerned. This committee cannot but contrast the action of the Regents in dismissing the President with many instances shown by the record in which the President had occasion to dismiss various members of the Faculty and other employees of the University, where, in every case, the greatest possible consideration and courtesy was displayed toward the unfortunate one.

To President Hendrick himself and the many statements which have been in circulation concerning him, this committee has given much attention. Of all the charges which have been made, there are but few concerning which the committee feels any uncertainty. Those which we shall not mention in particular may, in the opinion of the committee, properly be divided into three classes: (1) Such as are so insignificant as not to be entitled to consideration; (2) those which have in the opinion of the committee been proven untrue; (3)

and those which, though true, reflect not upon the President, but others in various positions of authority.

It was charged that President Hendrick made a certain statement reflecting upon the girls of Manzanita Hall. The committee is by no means satisfied that the statement was made in the language charged, but, even assuming that it was, it was made but once, and then only to the President of the Parents-Teachers Association of Reno, and to her sister-in-law, both most estimable ladies, and women to whom it would seem a President of the University should feel free to impart such information, in the hope of enlisting their cooperation in remedying conditions. In view of the very evident attitude of the President at all times toward the welfare of the University and in his concern for the maintenance of its good name and the good name of the students, we feel that no criticism should attach to the President for his course in this regard.

It was also charged that the President had, on a certain occasion, in the presence of several people, made a statement derogatory to the members of the family of the late President Stubbs. The President admits making the statement in question, and practically in the language charged, but from the testimony of three of the persons present at the time, who had been very close to President Stubbs and who would undoubtedly have resented strongly any reflections upon the members of his family, and from the further fact that President Hendrick has at all times shown the kindest feelings for the members of the Stubbs family, and has on many occasions gone out of his way to show them valuable courtesies, this committee is of the opinion that the statement above referred to was not intended in any derogatory sense and that any criticism based upon the making of it was, and is, wholly unjustified.

Another charge against the President which we feel we should mention is that concerning the use of the letters "M.A." following his name in various publications and on various occasions, when it is alleged no such degree had ever been conferred upon him. The President claims that he is entitled to the honorary degree of Master of Arts from the University of Toronto for certain services rendered at that institution. The statement of the Registrar of the University of Toronto is in evidence, to the effect that such degree was never conferred upon Mr. Hendrick. The latter also stated that he thought a Master of Arts diploma had been issued to him many years ago, at the time the honor was earned, by the Toronto University, and that since the beginning of the investigation, when this charge first came to his notice, he had been endeavoring, but thus far without success, to have the diploma forwarded to him by his parents in Canada. If the diploma is later received by him, that will, of course, clear up the whole situation. But we feel that the President exercised questionable judgment in using the words "M.A." in connection with his name without first being in a position to show that he was clearly entitled to do so. This could probably have been effected at any time by his insisting upon the authorities at the Toronto University issuing the diploma to which his work entitled him. Apparently this point, in the absence of further proof, resolves itself into a matter of the use of a title when it had been earned, but before it had been actually conferred; at least, that is the strongest interpretation which can be placed upon the situation adverse to the President.

This committee finds that the charge that the President has been guilty of undue political activity to have been based solely upon the fact that he appeared before the Nevada State Legislature for the purpose of explaining the University's requirements in a financial way, and also before a Congressional committee at Washington at the direct request of the Board of Regents to testify regarding a certain land-grant bill intended for the benefit of the University. The committee feels that this charge was at all times exceedingly ill-advised, and that the President acted wholly within the scope of his duty, and was not deserving of the slightest censure for his actions in this regard.

There is one further point in connection with the charges against the President concerning which the committee wishes to make some comment. It has been stated that the President, some two years ago, arranged for some changes in connection with the Normal School, and that later he stated he did not know how a report to that effect originated, as it had not come from him. The changes in question were not made. From the testimony introduced, we cannot say whether or not this charge is well founded, but, from the great interest displayed by the

President in this department of the University's work, certainly we are convinced that it was never his *desire* to remove the Normal or to in any way impair its usefulness to the people of the State.

The members of this committee, during the course of the investigation, acquired very favorable impressions of President Hendrick in many ways. In the first place, in spite of all adverse comment, we feel that the affairs of the University could not have been administered better during the past two and one-half years than President Hendrick has administered them. We feel that he is a man who will make enemies wherever he may go, because he has the enthusiasm and the ability to accomplish. There is no question but that much of the opposition to his administration has been occasioned by his strong desire to work for the best interests of the University as an institution and to consider secondarily the interest of those individuals who failed to profit thereby. He has made many changes, all apparently justified and made with the highest motives, and with uniformly excellent results, though undoubtedly tending to create opposition to himself in certain directions. This committee also feels that further changes in the personnel of the institution might be desirable.

The affairs, both public and private, of the President for many years last past have been the subject of a considerable amount of investigation by various citizens of this State during the past few years. The matter was gone into in great detail during the course of the deliberations of this committee, and we were deeply impressed by the fact that, covering as they did the course of an extended career in public life and important business affairs, these investigations by people opposed to the President should have proven so absolutely fruitless of the results desired.

The committee noted with much pleasure the manly bearing of the President during the entire course of the investigation. While many persons in authority at the University, and some who are otherwise engaged, were at all times diligently endeavoring to discredit the President, he at no time showed the slightest resentment, malice or desire for retaliation, but concerned himself solely with the defense of his own good name. We believe this one fact furnishes a good indication of the broad character of the man. It is a matter of sincere regret to this committee that our University has been deprived of Mr. Hendrick's services.

This committee has some recommendations which they desire to make which, if adopted, would probably tend to improve conditions in connection with the University, some of which have been referred to above.

We recommend to the Board of Regents that the President of the University be permitted to exercise full control over the financial affairs of the institution, subject only to the direction of the Board of Regents and to such statutory restrictions as are now or may hereafter be imposed.

We recommend the installation of the best possible system of accounting in the Comptroller's office and that Mr. Lee be requested to advise with the Board of Regents concerning the same. Also, we trust that, after such installation, the system decided upon will be maintained in force and not be permitted to lapse.

We recommend the passage of an Act by this Legislature fixing the terms of office of the Regents at ten years and providing for the election of one Regent at each general election. A bill to this effect has been prepared under the direction of the committee and will be introduced. This recommendation is based upon our firm belief that it is wrong in principle to elect a majority of the Board of Regents every two years. We feel that a majority of the board should at all times be composed of persons familiar, from actual experience and participation therein, with the affairs of the University and fully cognizant of existing conditions. There can be no doubt that such a board would be better equipped to legislate wisely and in every way to promote the welfare of the University than would a board the majority of the members of which might be participating for the first time in the deliberations of the board. The suggestion has been made that it would be wise to make provision for an appointive Board of Regents. This committee is not urging the plan above outlined as a better one, but it has the advantage at least of being more expeditious, as no constitutional amendment will be required to put into effect the one proposed by the committee, and we feel that there are some advantages as well as disadvantages in the selection of public servants by the vote of the whole people.

We desire to express our thanks and appreciation to the city and county authorities at Reno for their kindness in granting the committee the use of the

council chamber and Mayor's office in the City Hall, and one of the courtrooms in the courthouse, for the holding of the meetings of the committee.

We also desire to thank the numerous persons who, as counsel, witnesses and otherwise, assisted the committee materially by their willingness at all times to cooperate with the committee in the endeavor to make our investigation complete and at the same time brief.

Respectfully submitted,

N. H. CHAPIN,
PETER BUOL,
A. W. HESSON,
J. H. FULMER.

PRESENTATION OF PETITIONS

RENO, NEVADA, March 1, 1917.

To the Honorable the Senate:

DEAR SIRs: The members of the Twentieth Century Club of Reno are much concerned over Senate Bill No. 79 on military training in the public schools, and passed a motion at the regular meeting of February 23, expressing their opposition to a bill providing for such training in the high and grammar schools of the State.

While fully appreciating the necessity for trained soldiers, we believe such training should be given full-grown men.

Walter S. Cowing, Scout Executive of the Boy Scout Movement, is authority for the statement that "according to the U. S. marine recruiting office, less than 10 per cent of the applicants for enlistment are physically fit for service. Surely we have need in our schools for greater and ever-increasing effort towards body and health efficiency. There is evidence that military training for boys does not supply this need in as full measure as the accepted systems of physical training."

Can you not provide for the physical development of the 14- to 18-year-old high-school boy in preparation for the active military training for the young man when he takes up his duties as a citizen?

We earnestly ask you to consider a substitution of physical for military training.

Very respectfully,

Mrs. J. E. CHURCH, *President*.

SIR: Will you kindly send us two copies of any bill or bills before your body creating or designating a State Board of Vocational Education?

The federal Smith-Hughes law granting aid to the several States requires each Legislature to thus designate or create a state board that will handle the federal moneys. We are interested in the type of board, and the procedure that each State proposes to take, hence this request.

If you have other bills setting up a system of vocational education, requiring attendance upon a continuation or vocational school a half-day a week, or thereabouts, during working hours, a copy of that will also be greatly appreciated. Two or three States already have such laws in effect, and a half-dozen more are considering bills to that effect.

Very truly yours,

FRANK L. GLYNN, *Secretary.*

The communication from the Wisconsin State Board of Industrial Education was referred to the Committee on Education, State Library, and Public Morals.

MESSAGES FROM THE GOVERNOR

To the Honorable the Senate:

I return to you herewith, without my approval, Senate Bill No. 34, entitled "An Act to provide for the distribution of certain furniture belonging to the State of Nevada, to the military department, to Lincoln Hall, and to Manzanita Hall, at the University of Nevada."

My objection to this bill does not lie against the gift of the furniture in question to the University, but it is as follows:

The University was responsible in a large measure for the successful accumulation and presentation of the Nevada exhibit at the Panama-Pacific Exposition, certain departments of that institution having, without charge for service to the State, collected and supervised the exhibition of the entire Nevada exhibit.

It is my belief that these particular departments should be specifically recognized in your Act disposing of the furniture, equipment, and exhibits remaining as state property, if the University is to receive them.

While I am advised that a collateral agreement, looking to a satisfactory disposition of this material, does exist between the University departments, I think it only proper that all possible cause for future misunderstandings be eliminated by the enactment of a comprehensive bill which includes the disposition of not only the Panama-Pacific furniture, but the Panama-California furniture, and all exhibits and equipment as well.

Respectfully submitted,

EMMET D. BOYLE, *Governor*.

MOTIONS, RESOLUTIONS, AND NOTICES

By Senator Huskey:

Senate Resolution No. 17.

Resolved, That, whereas Assembly Substitute for Senate Bill No. 35 and Assembly Bill No. 97 is largely copied directly from Senate Bill No. 35, and, whereas, Assembly Rule No. 13 declares that "a substitute shall be deemed and held to be an amendment and treated in all respects as such," that the Senate consider Assembly Substitute for Senate Bill No. 35 and Assembly Bill No. 97 as an amendment by the Assembly to Senate Bill No. 35; that the Senate do not concur in said amendment, and that the Senate respectfully requests the Assembly to recede from said amendment to Senate Bill No. 35, and to place Senate Bill No. 35 upon third reading and final passage upon regular roll-call, since the fact that the substitute is also a substitute to Assembly Bill No. 97 might make some question as to the legality of its passage without roll-call.

Senator Huskey moved the adoption of the resolution.

Mr. President:

Your Committee on State Prison and Nevada Hospital for Mental Diseases begs leave to report as follows:

That we have personally visited the Nevada State Prison, Nevada State Hospital for Mental Diseases, and Nevada State Prison Farm, and found the following conditions to exist:

At the Nevada State Prison we found that the general upkeep, discipline and supervision of the Prison and State Prison Farm was in good condition and well managed. The number of prisoners now being cared for is 187. The sanitary conditions are good, considering the facilities for sewerage, which are bad, because the solid rock foundation has made the laying of sewers difficult and almost impossible without heavy expense. The roof of the prison is badly in need of repair. We recommend that no less than \$6,000 be appropriated for the repair of the roof of the old buildings and for such other repairs as may be necessary, during the next two years.

It has been brought to our attention that a new cellhouse and cells should be built at the State Prison Farm, which is four miles from the Prison. With the building of this cellhouse and cells more men could work at the farm and be cared for there. If the Legislature should deem it advisable to build a new cellhouse and cells at the State Prison Farm, we recommend that a bond issue of not less than \$50,000 should be made for this purpose, with which to begin the work.

At the Nevada State Hospital for Mental Diseases we found that the roof, which has been repeatedly repaired, cannot be repaired so as to prevent leakage through the tops of the old walls and that it will be necessary to take off the roof and to build a new story, together with a new roof over the entire hospital building. For this we recommend an appropriation of \$30,000. The need of this repair has existed for so long that the building is in a bad condition and must be attended to. The building of this new story and the construction of a substantial roof will eliminate the present hazardous condition now existing at the Hospital for Mental Diseases from possibility of fire.

We found the heating plant at the hospital badly in need of a new steam boiler, and therefore recommend that an appropriation of \$7,300 be made for the installation of a new boiler.

We found the general management and superintendency of the hospital, cleanliness, and sanitary conditions excellent.

The committee desires to commend highly the Superintendent and Warden and their subordinates for their efficient management of the institutions.

J. D. CAMPBELL, *Chairman*.

A. W. HESSON,

M. R. PENROSE.

INTRODUCTION AND FIRST READING

Senators Buol and Harrington asked and were given the unanimous consent of the Senate to introduce resolutions.

By Senator Buol:

Senate and Assembly Joint and Concurrent Resolution No. 9, adopting an emblem for the State of Nevada.

Resolved by the Senate, the Assembly concurring, That sagebrush (artemesia tridentata or trifida) is hereby adopted as the state emblem of the State of Nevada.

On motion of Senator Buol, duly seconded, the rules were suspended, reading so far had considered first reading, rules further suspended, resolution read second time by title, and referred to Committee on Judiciary.

By Senator Harrington:

Senate Joint and Concurrent Resolution No. 10, relative to the amendment of section four of the Federal Act to regulate commerce, and petitioning the President of the United States and our representatives in Congress to take such action as will provide in said amendment for an absolute long-and-short-haul provision eliminating the grossly unjust and discriminatory back-haul charges which are assessed against the people of Nevada on both east- and west-bound transcontinental freight traffic.

WHEREAS, The people of the State of Nevada have suffered, and are suffering, under a most unjust and oppressive discrimination arising from the imposition of a system of infamous differentials or back-haul charges in freight rates on both east- and west-bound transcontinental freight traffic, assessed against Nevada points through the medium of the Transcontinental Freight Bureau of Chicago, Illinois, the membership of which is made up of all interstate railways which participate in said transcontinental business; and

WHEREAS, Said differentials, or back-haul charges, when defined, amount to the charging of a higher rate upon freight traffic between all Nevada points and all points of origin or destination in eastern defined territory than is charged to or from the longer distant Pacific Coast terminal points, or, conversely stated, the charging of a lower rate on said traffic to and from said farther distant Pacific Coast terminal points than is charged to and from said shorter distant Nevada points; and

WHEREAS, Said discriminatory and preferential system of charging is defended upon the theory that same is forced and compelled because of the presence of water competition at San Francisco, Los Angeles, and other Pacific Coast terminal points or ports of call; and

WHEREAS, With rare exceptions said ocean-going traffic has never amounted to more than ten per cent of the all-rail transcontinental traffic moving to and from said Pacific Coast terminals; and

WHEREAS, Since the slides in the Panama Canal in 1915 and the European war, there has never been any ocean-going competition, nor is there any today; and

WHEREAS, In exemplification of the arbitrary and unjust character of said discrimination imposed against the people of Nevada and other intermountain territory embracing all of the great country lying between a line running north and south from Canada to Mexico through Denver, and another north and south line immediately east of Seattle, Portland, San Francisco, Los Angeles, and San Diego, let it be stated that the final carriers reaching said Pacific Coast terminals

or ports of call absorb said entire differentials or back-haul charges assessed against our people, notwithstanding the self-evident fact that if said water competition were truly forceful and compelling, as alleged, the connecting carriers east of Ogden, El Paso and St. Paul would be as vitally concerned and insistent upon a participation in said higher charges for said shorter hauls as are the final carriers; and

WHEREAS, As further indicating that said water competition is not a compelling consideration, let it be emphasized that there have never been any differentials or back-haul charges assessed against the people of eastern interior territory (Indiana, Ohio, etc.) tributary to the Atlantic Coast, on east-bound transcontinental traffic from Pacific Coast terminals or interior points tributary thereto. On the contrary, while these arbitraries are not assessed against east-bound traffic to the same extent as on west-bound, yet whenever levied against said east-bound traffic, as in the case of wool shipments, the Nevada wool producer pays said back-haul charge and the originating carrier absorbs it; and

WHEREAS, Said system of back-haul charging never was, and is not now, predicated upon any principle of justice or fair dealing to the people of said intermountain territory, from which it follows that this theory or basis of rate-making will not stand the test of a fair analysis; and

WHEREAS, The effect of said lower charges for the longer haul to and from said more distant points results in building up great industrial and commercial enterprises, and in centralizing and enlarging the population at said Pacific Coast terminal points, a substantial proportion of which is at the expense of Nevada and other intermountain States; and

WHEREAS, The effect of said higher charges for the shorter haul to and from said less distant points results in retarding the growth and development of Nevada's industrial and commercial prosperity, and in restricting the State's growth in population and wealth; and

WHEREAS, The Railroad Commission of Nevada in 1908 brought a proceeding before the Interstate Commerce Commission, and did then, and has ever since, been contending in numerous hearings which have been held, that these arbitrary back-haul charges should be entirely removed on west-bound transcontinental traffic; and

WHEREAS, When said proceeding was brought in 1908, the average back-haul charge assessed against Nevada points amounted to rates approximately 75 per cent higher than those charged on similar traffic passing through Nevada to San Francisco and Los Angeles; and

WHEREAS, Since that time said Railroad Commission of Nevada has been successful in securing reductions in class and commodity rates from all eastern defined territory, which have had the effect of reducing said differentials or back-haul charges to approximately 25 per cent, as compared with 75 per cent when the case was started in 1908; and

WHEREAS, The Railroad Commission has conclusively shown throughout the trial of these cases, that the lower rates charged to said Pacific Coast terminals on said west-bound traffic was in every way compensatory when considered upon the basis of the cost of moving said traffic in trainload lots without the necessity of breaking bulk in transit during the long haul across the continent; and

WHEREAS, Further; the people of Nevada have through the Railroad Commission contended, and do now contend, that said rates covering the movement of west-bound transcontinental traffic to Pacific Coast terminals are fully compensatory; the evidence upon this point being conclusive and having never been refuted by the railroads, it follows that the removal of said back-haul charges, and the application of rates no higher to Nevada points than to Pacific Coast terminals, would be equally, or in fact more compensatory, than to said farther distant points; and

WHEREAS, The carriers have from the outset, and do now, elect to stand upon the mere question of the presence of water competition at said Pacific Coast terminals as fully justifying the charging of said lower preferential rates at said Pacific Coast terminals and the higher discriminatory rates at Nevada points, and this without regard to the relationship existing between the revenue received and the cost of rendering said service, or any other consideration; and

WHEREAS, Said Interstate Commerce Commission has, in Nevada Railroad Commission vs. Southern Pacific Co., 19 I. C. C. 238, June 22, 1911, stated: "The carriers herein involved have not shown that undue discrimination was not effected

by their rate reductions between points in Nevada and points in California, nor have they established that the rates to the Pacific Coast cities, if extended by them from eastern points outside the zone of water influence, are not fully compensatory"; and

WHEREAS, The Interstate Commerce Commission has, in its decision of June 5, 1916, in the matter of fourth-section applications Nos. 205, *et al.*, said: "The result of all the evidence offered was to show that there is not at this time any effective water competition between the two coasts, and that there is little likelihood of any material competition by water during the present calendar year, irrespective of the action the Commission may take with respect to these petitions. * * * The war and an unparalleled rise in prices for ocean transportation have so changed the situation as to transfer a relation of rates that was justified when established, to one that is now unjustly discriminatory against intermountain points"; and

WHEREAS, Notwithstanding the indisputable character of the evidence submitted by Nevada through its Railroad Commission and said findings above quoted, the Interstate Commerce Commission has thus far failed to remove in their entirety said arbitrary differentials or back-haul charges assessed against Nevada; and

WHEREAS, During the year 1916 the entire question covering said differentials on west-bound freight traffic was, upon further application of the Nevada Railroad Commission for the complete removal of said back-haul charges, again reopened and heard by the Interstate Commerce Commission and is now submitted for decision; and

WHEREAS, If said back-haul charges are removed by order of said Commission the Pacific Coast jobbing interests and the carriers who profit by the perpetuation of said system of charging may contest said order in the Federal Courts on the ground of informality, irregularity in proceedings, or otherwise, thus resulting in unreasonable and unnecessary delay; therefore, be it

Resolved by the Senate, the Assembly concurring, That the President of the United States and the Senators representing Nevada, and the Nevada Representative in Congress be, and they are hereby, requested to work for the passage and vote for an amendment to section four of the Act to regulate commerce, providing that it shall be unlawful for any common carrier subject to the provisions of said Act to charge or receive any greater compensation in the aggregate for the transportation of freight and passengers for a shorter than for a longer distance over the same line or route in the same direction, the shorter being included within the longer distance; but this shall not be construed as authorizing any common carrier within the terms of said Act to charge or receive as great compensation for a shorter as for a longer distance; and be it further

Resolved, That Congress be and is hereby memorialized and requested to provide for and pass said amendment; and it is further

Resolved, That copies of this resolution be forwarded to each Senator and Representative in Congress; and it is further

Resolved, That the Railroad Commission of Nevada be, and it is hereby, authorized to cooperate with the railroad commissions and commercial organizations of all other intermountain States hereinbefore defined, in bringing this matter to the attention of Congress, when said amendment is under consideration, in such manner as will most effectively support and promote its passage.

On motion of Senator Harrington, under suspension of all rules, reading so far had considered first reading, and, under the emergency clause of the Constitution, resolution considered an emergency measure and be considered engrossed and placed on third reading and final passage.

Carried.

MESSAGES FROM THE GOVERNOR

To the Honorable the Senate:

I desire to call the attention of your honorable body to Senate Bill No. 126, entitled "An Act to provide for the establishment of evening schools."

It appears to me that through a clerical error the amount appropriated by the State is appropriated from the general fund, and I am convinced that it was your intention to make this appropriation from the state school fund.

I believe it is due in courtesy from me to call your attention to this apparent error that you may authorize your Enrollment Committee to retain the bill so that the necessary correction may be made if desired.

Respectfully,

EMMET D. BOYLE, *Governor.*

By Senator Harrington:

Senate and Assembly Concurrent Resolution No. 6:

WHEREAS, Senate Bill No. 126 entitled "An Act for the establishment of evening schools" contains in the printed bill in line 12, page 2, the words "general fund of the State" and is so worded for enrollment, and

WHEREAS, This is an error and the words "state school fund" should be substituted for the words referred to; now, therefore, be it

Resolved by the Senate, the Assembly concurring, That the Enrollment Committee of the Senate is hereby authorized to correct said bill in the manner herein indicated.

Senator Harrington moved the adoption of the resolution.

Carried.

MESSAGES FROM THE GOVERNOR

To the Honorable the Senate:

Senate Bill No. 84—An Act relating to trespasses of live stock upon cultivated land and specifying what shall constitute a legal fence, etc.—contains a definition of a legal fence which, were this Act to go into effect immediately, might readily deprive many persons in this State, who are maintaining adequate barriers against incursions of live stock, of adequate legal remedy in the event of trespasses.

While generally approving the proposition that the owners of lands liable to damage by live stock should surround them with a proper fence, it appears to me that the precise provisions in this Act might place an unreasonable disadvantage on many persons and that a legal fence might be defined in much more general terms.

I respectfully suggest that the Enrollment Committee be empowered to withdraw this bill to permit your body to authorize certain changes, if you see fit to do so.

Respectfully,

EMMET D. BOYLE, *Governor*.

The President referred the communication to the Committee on Agriculture.

REPORT OF JOINT COMMITTEE ON RULES

To the Honorable Senate and Assembly:

Your Joint Committee on Rules recommends as follows:

That Rule 5 of the Joint Rules be stricken out in its entirety. That Rule 8, under Resolutions, be made to read as follows:

Concurrent resolutions shall be used as a means of expressing fact, principles, opinions, and purposes of the Senate and Assembly and for authorizing joint committees of two houses. They shall not be binding on either house until agreed to by both. They shall not be sent to the Governor for approval.

Joint resolutions shall be used as a means of addressing the President of the United States, Congress, or either house thereof, Representatives in Congress, the National Departments, and for proposing amendments to the Constitution of the State of Nevada. Joint resolutions shall be treated in all respects as bills, except that joint resolutions proposing amendments to the State Constitution shall not be submitted to the Governor for his approval or signature.

Your committee recommends that the numbering of the Joint Rules be changed to conform with the striking out of Rule 5 and that the rules be numbered consecutively; that will make the above rule regarding resolutions be Rule 7.

We recommend the addition of three new rules to be designated as follows:

9. *Adjournment.* Neither house, during the session of the Legislature, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

11. The Legislature is adjourned for more than three days by concurrent resolution.

MESSAGES FROM THE GOVERNOR

To the Honorable the Senate:

GENTLEMEN: It seems desirable that I call your attention at this time to the question of policy to be adopted by the State in the assessment on property in

1917 and 1918 for the purpose of raising state revenue. For the past several years there has been a consistent upward movement in assessment values, brought about by the activities of preceding tax commissions, and looking to a final assessment at full cash value of all property in the State. This policy resulted in a 60% assessment in 1914, a 70% assessment in 1915, and an 80% assessment in 1916, and contemplated a 90% assessment in 1917, with full cash value in the assessment for 1918. Estimated on the figures thus far obtainable of appropriations to be made by your honorable bodies, and approved by this department, it appears that the tax rate for the year 1917 will be 61.55 cents if the 80% valuation established last year is maintained. If 90% shall be the basis of assessment for 1917, a tax rate of 56.05 cents will be required.

While in no sense recommending abandonment of the policy of assessment at full cash value, there is a logical argument that the change in the personnel of the Tax Commission, the addition of several new Assessors to the State Board of Equalization, and the lateness of the season, will make the problem of bringing out a 12½% increase in the assessment of last year a difficult one.

These facts are given to you in order that your determination of the tax rate for the ensuing year will be an index to the Tax Commission and the State Board of Equalization of the particular policy you had in mind when establishing that rate, whether it be predicated upon an 80% valuation for this year, or on a 90% valuation. Either plan contemplates an increase in assessed valuations for 1918, either to the 90% basis or to full cash value, dependent on your adoption of the 80% or 90% ratio for this year.

Respectfully,

EMMET D. BOYLE, *Governor*.

Senator Bradshaw moved, under the suspension of all rules, Assembly Bill No. 85 be taken up for reconsideration of vote.

Carried.

Assembly Bill No. 85.

Bill passed by the following vote:

Assembly Joint and Concurrent Resolution No. 14.

Resolution lost by the following vote:

YEAS—Senators Buol, Chapin, Harrington, Huskey, and Kenney—5.

NAYS—Senators Bradshaw, Campbell, Fernald, Hesson, Hussman, Keddie, Lemaire, Penrose, Stewart, Summerfield, and Thatcher—11.

Absent—Senator Elliott.

Senator Harrington asked to have the following protest entered in the Journal:

By Senator Harrington:

For myself, and in behalf of those who voted in favor of the resolution, I protest against that action of the majority in reconsidering the vote on the resolution at this time and in this manner. Besides being clearly illegal and unparliamentary, it denies the right of the people of this State to express their views on the question, a right that belongs to them under the modern theory of government. They expressed very clearly, by the adoption of the initiative, recall and referendum provisions of the Constitution, that they have an interest, as the final arbiters, in all questions of government. And in the face of that expression, the majority of this Senate, by a party vote, arrogates to itself the right of declaring what amendments shall or shall not be adopted, and denies the electorate the right of adopting or rejecting the proposition.

Senator Huskey asked to have the following protest entered in the Journal:

By Senator Huskey:

I protest against the action of the Senate on the ground that the reconsideration is illegal, for the reason that the resolution had passed both houses by the required majority of two-thirds, and that the reconsideration occurred, not only upon the last day of the session, but during the last few hours, and at the evening session.
